

## TBLS-2022-23 New Arrival Books List

| Sl No                                   | Author                      | Title   |
|---|-----------------------------|---|
| <b>Ancient History &amp; Archeology</b> |                             |   |
| 1                                       | Shashidhar, Melkunde        | History of ancient India : from earliest to the Kushanas                            |
| 2                                       | Shashidhar, Melkunde        | History of ancient India : from earliest to the Kushanas                            |
| 3                                       | Shashidhar, Melkunde        | History of ancient India : from earliest to the Kushanas                            |
| <b>Anthropology</b>                     |                             |   |
| 1                                       | K. M. Sinha Roy (Editor)    | Tribe, caste and peasant world: legacy of professor Surajit Chandra Sinha           |
| 2                                       | Eriksen, Thomas Hylland     | An introduction to social and cultural anthropology: small places, large issues     |
| 3                                       | V. Srinivasa Rao (Editor)   | Disadvantaged tribes of India: regional concerns                                    |
| 4                                       | Henrietta L. Moore (Editor) | Anthropological theory today  |
| 5                                       | V. Srinivasa Rao (Editor)   | Tribal integration in India: Northeast and beyond                                   |
| 6                                       | Mridula Sharada             | Tribal India: issues and challenges   |
| 7                                       | V. Srinivasa Rao (Editor)   | Tribal livelihood and governance: regional concerns                                 |
| <b>Bio-Technology</b>                   |                             |   |
| 1                                       | Lodish, Harvey              | Molecular cell biology  |
| 2                                       | Andreas Hofmann (Editor)    | Wilson and Walker's principles and techniques of Biochemistry and Molecular Biology |
| 3                                       | Nelson, David L.            | Lehninger principles of biochemistry  |
| 4                                       | Willey, Jonne M.            | Prescott's Microbiology   |
| 5                                       | Jarvis, Clive               | Essentials of Nanobiotechnology   |
| <b>Bio-Chemistry</b>                    |                             |   |
| 1                                       | Berg, Jeremy M.             | Biochemistry  |
| 2                                       | Devlin, Thomas M.           | Textbook of biochemistry with clinical correlations                                 |
| 3                                       | Nelson, David L.            | Lehninger principles of biochemistry  |
| 4                                       | Hall, John E.               | Guyton and Hall textbook of medical physiology                                      |
| <b>Botany</b>                           |                             |   |

|                  |  |  |
|------------------|--|--|
| 1                | Huel, Luther                           | Plant diseases: phytopathological and botanical research methods |
| 2                | Kassulke, Geovany                      | Medicinal plant and their cultivation system                     |
| 3                | Lockman, Werner                        | Abiotic stress and plant responses                               |
| 4                | Agrios, George N.                      | Plant pathology  |
| 5                | Preeti Dixit                           | The DBS Handbook of Microbiology                                 |
| <b>Chemistry</b> |  |  |
| 1                | Reid, Rory                             | Inorganic Chemistry  |
| 2                | Hartman, Brook                         | Physical Chemistry   |
| 3                | Pasricha, Sharda                       | Practical organic chemistry                                      |
| <b>Commerce</b>  |  |  |
| 1                | Randall, Oliver                        | Advanced research in commerce and management                     |
| 2                | Krugman, Paul R                        | International finance  |
| 3                | Cameron, Thomas                        | Commerce and business management in modern world                 |
| 4                | Vrinda Arora (Editor)                  | Risk analysis insurance and retirement planning                  |
| 5                | Neha Arora (Editor)                    | Cash flow analysis   |
| 6                | Colonel Berinder singh Kullar (Editor) | A handbook of management techniques                              |
| <b>Education</b> |  |  |
| 1                | Bakkappa, Ravikiran                    | Advanced methodology of educational research and statistics      |
| 2                | Chalwadi, Shankarappa H.               | Educational research   |
| 3                | Kumara, T. M. Prashantha               | Elements of inclusive education                                  |
| 4                | Kumara, T.M. Prashantha                | Elements of inclusive education                                  |
| 5                | Ravi Kiran                             | Inclusive education  |
| 6                | Ravi Kiran                             | Inclusive education  |
| 7                | Ravi Kiran                             | Educational management and organization for teachers' trainee    |
| <b>Economics</b> |  |  |
| 1                | Edited by : Anoop Pant                 | Formula Budgeting  |

|                                     |  |   |
|-------------------------------------|--|---|
| 2                                   | Anoop Pant (Editor)  | Zero-base budgeting (ZBB)   |
| 3                                   | Vinod B. Annigeri ,<br>R.S. Deshoande &<br>Ravindra Dholakia<br>(Editor) | Issues in Indian public policies  |
| 4                                   |  | Advanced economic theory  |
| 5                                   |  | Economics development in India  |
| <b>Environmental Science</b>        |  |   |
| 1                                   | Subramanian, V.  | A textbook of environmental chemistry   |
| 2                                   | Mitchell, Riley  | Air pollution   |
| 3                                   | Kamboj, Dev Vrat   | Biodigester: a new horizon for sanitation technology                                      |
